Thumb drive to bring in for next meeting

No Raffles until we sort the legal issues out

New Business and Announcements (N.B.A.) -5 minutes

TBD

The more ya know (PROGRAM) -

Video Presentation - **Lightning**

As the beginning of spring is here so too are lightning storms. This will be PART 1 (about 17 minutes) going over formation and types. Getting a good foundation to the matter is essential and the Professor for the discussion will be Alex Flippenko. The lecturer is Professor Alex Flippenko. Professor Filippenko is Professor of Astronomy and Richard and Rhoda Goldman Distinguished Professor in the Physical Sciences at the University of California, Berkeley. He is among the most widely cited astronomers in the world. His extensive career has brought him scores of awards and accolades, including **election to the National Academy of Sciences**, the highest honor given to an American scientist, and UC Berkeley's Distinguished Teaching Award. His lectures are thorough and tailored for the general public.

Part 2 (our May meeting) will discuss how to stay safe in a storm and what to do.

Maxey's Minute(s) 5-6 minutes

“Tales from the trails”-

April							
Willow Creek	Denise & Teresa	Emmett	COMPLETED	Fri	4/1/2016	sun	4/3/2016

Owyhee Loop	Jim Maxey	Boise		Sat	5/7/2016	Sat	5/7/2016
Danskin- sign install	Rusty & Jim	Mountain H. - Boise	Prairie Idaho area	Thu	5/12/2016	Sun	5/15/2016

Crashes, Rolls & Causes (C.R.A.C. or “crack”)

~~with Jim and Patrick (5 minutes)~~

~~Jim & Patrick analyze crashes/rolls video(s) to help members ride more safely.~~

Reiterations (3 minutes) - Jim and Patrick

- Licenses needed,
- Insurance to have,
- Lifeflight Ins. get it
- trail etiquette,
- search/rescue thought,
- Dues paid?
- tell someone where you're going etc.
- 2016 OHV stickers!
- Send in your mileage or let Jim know what ride you went on

Stop the insanity- Meeting ends - Don't forget to introduce yourself on the way out if you have time to new members.

Experts Edge Clinic

8:30p to 9:00pm (ish) – GPS & Your Map -Navigation/ plotting skills *CONTINUED*.

Instructor(S) - Patrick Sherman (President of the Boise ATV Trail Riders) Darrel McCracken Retired Military Navigator

With the large amount of people we had for the GPS / Delorme Map clinic we were not fully able to incorporate all the functionality of the mapping “system” in the amount of time we had. In this follow up, we will do a very short review of the plotting method using our map books and then use the Degrees-Decimal-Minutes coordinates and plot locations into Google Earth. We will show you the following:

1. How to set your “home” starting point in Google Earth
2. How to set up your Google Earth software for the proper position format
3. How to navigate with turn-by-turn directions to and from a specific point within Google Earth

4. How to save various coordinates for future rides
5. How to adjust a way-point as needed
6. Quick review of a conversion website just in case you're using someone else's coordinate format
7. We will further review how to set the position format in a Garmin GPS device
8. As time allows we will show you how to manually set a coordinate into your GPS unit so you can navigate to it.

For questions please Contact:

Patrick Sherman 916-226-5684 or patrick9723@gmail.com

SUGGESTED THINGS TO BRING WITH YOU FOR THIS CLINIC:

Most of this clinic will be a review on "how-to's" on the big screen walking you through various elements. We will complete our video recording of this information at the event and will post it after the clinic so you can review it yourself at home on YouTube or Vimeo or on our Boise ATV Trail Riders website.

The following items you might wish to bring with you but are not required:

- Map book of Idaho/Oregon
- Dividers
- Magnifying glass
- GPS Device (make sure your batteries are up)
- 15-17 inch ruler
