

An Impromptu Clean-Up at the Nettleton Ranch - Kudos!!

Thursday June 14, several members of the Boise, Emmett and Mtn. Home Chapters went to the end of the pavement of the Silver City Road to lend a hand to Paul Nettleton, who is a rancher in the Owyhees and a member of the Idaho-ATV Association. The members picked up trash and junk left on his property by a bunch of thoughtless riders.

Pete Collins, along with four riders went to Hewlett Reservoir, on Sinker Creek, to gather the left over diapers, beer cans, and even a computer monitor along the shore.

I took six riders up the trail to the Horse Ranch of Nettleton's and emptied the trash cans at his line cabin. Along the way, we found a 1969 Kawasaki Motorcycle at the Diamond Basin Corrals that was abandoned.

In all we gathered 12 orange garbage bags of stuff the careless folks had left behind. We then hauled it all to a central a location at the parking area, where Paul said he could load it in his pickup and take the trash to the Murphy Transfer Station for disposal.

The beer cans were mostly Coors and Keystone!!! Hummmm?!! Anyway, the point being, you bring it in you carry it out!

Paul was very appreciate and couldn't believe how fast we cleaned things up!

Thanks to all those who helped!

— Bill Jones, Executive Director
