## Owyhee Reservoir Ride, Boise/Canyon - January 11, 2009

**Ride Leaders: Carl Bloomquist**

**Photos & Story: Bill Jones**

**O**n Sunday, we met in Homedale then unloaded on the Succor Cr. road. It was a sunny day and not too cold, so we made good time to our first destination, the boat ramp at Indian Creek on the Owyhee Reservoir. From there, we backtracked up to the canyon rim again and headed south. We dropped down into the canyon again and ate lunch, then headed on down to the reservoir by the cabins. Then we headed back out of the

canyon a different way, went around Board Corral Mountain, and took the Kettle Creek road back to the trucks. It was an in-

teresting ride; we encountered snow, thick greasy mud, dust, and everything in between. We had 23 machines on the ride, rode 57 miles and were back to the trucks before 4:00 p.m. Everyone had a good time, in spite of the daunting challenge of removing all that mud from our ATVs that lay ahead of all of us.
