

# Kirkham Clean-up Ride Journal

Saturday, June 24-26, 2010

Ride Leader: Carl Bloomquist & Bill Jones

Story: Carl Bloomquist

We had another successful work detail on the Lowman trail system this year; our group was small but determined and really made a difference. On Thursday, the crew checked the

upper trails for trees and obstacles and found everything in good shape, albeit the Miller Mountain trail was still snowed in. We took Friday off, then hit the Kirkham Ridge trail with everything on Saturday.

The section nearest the highway was pretty brushy, and the upper crew removed several hazardous trees. But by early afternoon, the work was done. Saturday evening, we had a communal meal which the Boise club provided deluxe hot dogs and all the fixings and

everyone else chipped in. We had a good time and got the job done, so it was a successful trip. Big thanks to everyone who showed up to help, we appreciate your hard work.
